

3-301.3 Immediate buy requirements.

An immediate buy requirement will be identified by the user or the item manager in consonance with department/agency regulations. When an immediate buy requirement meeting the screening criteria (see 1-104(b)) is generated for a part not assigned a current AMC/AMSC, the part shall be promptly screened in accordance with either the full or limited screening procedures (see 3-303 and 3-304).
